cidilabs

Our products help course designers enhance the Canvas experience for students with improved course design, accessibility, course readiness tracking and file management.

cidilabs

Established in 2016 as a Utah State University spin-out company to license and support innovation developed by Kenneth Larsen for Canvas LMS.

Serving 175 institutions of all sizes.

New tools launched in 2019: ReadyGO, UDOIT Cloud and TidyUP.

DesignPLUS

cidilabs

DesignPLUS is the leading advanced course authoring toolset to natively integrate with the Canvas LMS.

- Create and update content in Canvas quickly and easily.

- Rapidly build course shells and create and style the content in your courses.

- Create courses in MINUTES (not hours)

- Update existing content

- Design courses with accessible content

- Get advanced CSS/HTML results without having to be a (total) nerd.
