A Quality Matters Event

Q-Up K-12 for Digital Quality

Qtips

1. The NSQ Online Teaching standards create a framework for schools, districts and state agencies to support online instruction for every teacher, at scale.
2. The NSQ portal "unpacks" this framework for every teacher to enhance awareness and personalize high-quality professional learning resources, aligned to individual strengths and needs.
3. Districts can also add other admins, resources, PLCs, mentorships, portfolio, assignments, CEUs - to unify all teachers and their PD in one place and aligned to the required framework.

KNOWING YOURSELF IS THE BEGINNING OF WISDOM

– Aristotle

Reflect

1. How do you create the conditions for students to take responsibility for their own learning?
2. How do you provide feedback to your students to support their journey towards mastery of the content?
3. Based on your reflections, what will you continue to do, do differently, or stop doing to improve your teaching?

Don't Forget
