Which of Your Top 3 Targets would you choose to go to work for and why?

I would choose to work for Hotwire. Their approach to their clients seems very fresh and open and along the lines of a company that I as a college student would want to be a part of. They understand new tactics, like collaborating with influencers (here is an example <https://www.hotwireglobal.com/work#working-with-influencers-to-reach-1m-people>), to try and get their client's needs met. I would consider applying for an internship there in the future semesters.

1. What did you score on the Pre-Activity Questions? 17.5
2. What did you think would be the best Instagram day and time to post prior to participating in the Activity?
I said personally for me, it was the evening time (at 7 pm) on weekdays
3. When is your actual best Instagram day and time to post according to your Insights analytics? Thursday 3 pm
4. What did you score on the Post-Activity Questions? 14.5
5. What information was most surprising to you?
I was surprised with how much Instagram can measure for a business profile.

Anonymous 27 (Milton Vargas) Oct 7, 2018 (14 Hours Ago) ✕ 🗨️ 🗨️ Points: 15.0 / 15

1. What did you score on the Pre-Activity Questions? 14.5/17.5
2. What did you think would be the best Instagram day and time to post prior to participating in the Activity? I thought it would be weekday mornings, simply because everyone is heading to work/school and checking social media during their morning commutes.
3. When is your actual best Instagram day and time to post according to your Insights analytics? Weekdays, around Noon.
4. What did you score on the Post-Activity Questions? 16/17.5
5. What information was most surprising to you? That the time I originally believed to be the best time to post was actually the worst and the best time is at 2am.

- **Competitors (other non-profits)-** Meals-on-Wheels of Greater Poughkeepsie, has testimonial sections, this provide non-profits with a greater sense of credibility
 - maybe doing a meet the homeowner section
- **Website Research**
 - Takes about 50 milliseconds for users to form an opinion based off ones website
 - 85% of adults believe that a companies website when viewed on a mobile device should be good or better than a typically desktop view
 - websites MUST be responsive
 - 38% of people will stop engaging with a website if the content and layout are unattracted
 - increase Habitat for Humanities design capabilities

- **Website needs to be organized**
 - proper sections for headers
 - more user friendly
- **Donation section on website**
 - only allows for car for cash donations
 - other non-profits allow for visitors to donate any amount/ increment
- **Social media icons need to be properly hyperlinked**
 - instagram goes to twitter
- **How-To-Videos need to be updated**
 - some of the videos are no longer available
 - not properly hyperlinked

- **Allow visitors to be able to easily navigate** Habitat for Humanity of Dutchess County Website
- **Organize website to create a better online experience to increase volunteer activity**

- **Nonprofit Marketing**
 - Nonprofits don't get as much attention as for-profits on social media or through advertisements
 - e-newsletters are free and effective
 - Creative awareness and fundraising work through starting a conversation
 - Everyone can participate
 - Example: #FirstWorldProblems

- **Need an external line of communication with donors and volunteers**
 - Increase donations
 - Increase awareness
 - Inspire current and potential volunteers and donors to stay involved/ get involved with Habitat
 - Keep everyone connected and well informed about news and changes

- **Stay in contact with donors and volunteers**
 - Produce monthly newsletters
 - Feature heartfelt stories in the newsletters
 - Potential for personalized donations
- **Grow social media accounts**

SENIOR PUBLIC RELATIONS MANAGER, CRISIS COMMUNICATIONS at Sephora

The title of the job caught my eye because I wouldn't typically associate Sephora, a makeup retailer, with having crises. However, it is a business and that comes with its own set of issues. While this job does list other requirements aside from handling crises, I do not think being responsible for all of the issues within the company would be something I would want to pursue. I am very much a creative person and want my work to reflect that, not just strategic problem solving efforts.

Events Coordinator, Saks Fifth Avenue

I chose this job title because I think event coordinating is really interesting and I couldn't think of a better place than Saks. I would love to work with planning and promoting fashion based events in the oldest department store in North America. In this listing they list certain qualities one must have which include the ability to quickly assess a new environment and develop solutions that support the business strategy, creative with a strategic mindset along with the ability to turn concepts into action (etc.). All of the things they described I feel really describe me personally as well as excite me. I always thrive off of on your feet thinking and the "make it work attitude".

PARTNER PR MANAGER AT PINTEREST

I chose this job because I would love to work in New York City at a company that I love. Pinterest is one of my favorite sites because it helps me find inspiration. I love the job description because it focuses on how to help others discover/find what they love. It would be a dream to be a part of their communications team and incline others businesses to join Pinterest.

I would actually love the opportunity to be able to do the same kind of work on a much larger scale with an International company like Saks Fifth Ave.

The screenshot shows a Panopto video player interface. At the top, it displays "Panopto 3D Printing: Process Overview" and "June 02, 2016". The main video area shows a woman on the left and a 3D printer nozzle on the right. A table of contents is visible on the left side of the player.

Contents	Overview 3D Printing Processes	0:00
Notes	Extrusion deposition	2:19
Bookmarks	Binding of granular materials	5:26
Comments	Lamination	9:03
	Photopolymerization	13:56
	Metal wire processes	16:11
	Industry/commercial use	19:03
	Consumer/personal use	24:44

At the bottom of the player, there is a search bar, a play button, a progress bar showing 5:12 / 23:47, and controls for speed (1x), quality, and a show button.
